

TRAIL INDEX REFERENCING

The TRAIL INDEX webpage has a useful built-in indexing code which can be used to provide a DIRECT link to the top of any specific collection of reports.

To provide link to a specific list of reports use the address: www.mhc.co.za/pages/trails.htm#name

where "name" is the embedded reference for that collection. The "name" for each of the indexed collections are shown in the list below. Use the name without the inverted commas but preceded by a hash (#)

i.e. www.mhc.co.za/pages/trails.htm#sungazer will link to the top of the SUNGASER list of reports

or www.mhc.co.za/pages/trails.htm#xmas will link to the top of the list of all XMAS

The names "trails", "hikes", "camps", and "dayoutings" respectively link to the top of the list of [TRAILS], [2-3 DAY HIKES], [2-3 DAY & longer OUTINGS/CAMPS], and [DAY HIKES/OUTINGS]

name="trails" [TRAILS]

name="blinkwater" Blinkwater Trail - Greytown

name="Blyde" Blyde Rivierspoort - Mpumalanga

name="cannibal" Cannibal Trail - Clarens

name="gt" Drakensberg Grand Traverse
